Kush Patel

Student at University of Liverpool
London, England, United Kingdom

Summary

Aspiring Mechanical Engineer | University of Liverpool Student | Seeking Placement Opportunities in London & Abroad

I am a passionate engineering student at the University of Liverpool, eager to gain hands-on experience through placements in dynamic and innovative environments. With experience as a plumbing apprentice, I've developed strong problem-solving, teamwork, and practical skills.

I am currently seeking engineering placements where I can apply my technical knowledge, grow in autonomy, and contribute meaningfully to impactful projects. Open to opportunities both in London and internationally.

Experience

Everyone Active - SLM
Recreatinal Assistant
May 2022 - Present (4 years 6 months)
London Area, United Kingdom

Supervised and guided junior participants in the gym, ensuring safety and promoting teamwork.
Managed multiple roles (reception, bar, kitchen) to meet operational demands efficiently.
Performed routine safety inspections to maintain compliance with health and safety standards.
Gained customer relations experience by assisting guests and managing POS transactions.

Ramki
Plumbing Apprentice
June 2021 - August 2021 (3 months)
London Area, United Kingdom

I performed duties to a high standard within the specified time period and have been asked to come back for further work by the company. I delivered positive customer experiences through helpful service, and enabled site teams to collaborate effectively for timely project
completion. I gained invaluable knowledge about how fluid dynamics and pressure systems are implemented in a real world setting, while gaining experience with power tools and specialised equipment.
